University of Maryland
Commencement
May 24, 1999

Congratulations on the successful completion of your degrees! You and your families have just reason to be proud of your reaching this important milestone.

As you leave “your” university, I would like you to know how much we, the faculty and staff, value your accomplishments as scholars, artists, athletes and young leaders. You have enriched your lives and have enlarged the esteem of this institution.

We have tried to provide you with a university experience where you could develop your academic interests, your special talents, and broaden your intellectual and cultural perspectives. Experience also shows that the friends and associations you have made while here will enrich your lives in many and varied ways. I urge you to stay connected and take full advantage of being a member of the Maryland family.

I hope that you will return to campus often and continue to support this institution and future generations of students at the flagship University of Maryland. Welcome to the university’s family of alumni.

Good luck to each and every one of you!

Yours sincerely,
C. D. Mote, Jr.
President

Congratulations on achieving this milestone in your educational pursuit. On behalf of the University of Maryland Alumni Association, I add our very best wishes to those you have received from your faculty and other university friends.

Your commencement ceremony today includes a special tradition. You will be officially inducted as a member of the Maryland Alumni Association by this year's association president, Ed Fry '69. Our gift to you on this special day is a one-year complimentary membership. In the next few weeks, you will receive your membership card and more information on the list of benefits and services you receive by virtue of your membership.

Wherever your plans take you following graduation, you'll find Maryland friends and professional contacts by getting involved in alumni activities. We have more than 30 academic, regional and special interest groups. We offer exciting trips abroad, a fun and educational way to connect with alumni. And, of course, attending Maryland athletic events is always a great way to get together with fellow grads. Regardless of how you choose to stay involved, our purpose remains the same: to respond to the needs and interests of all alumni, and to encourage your continued interest in and loyalty to the University of Maryland.

Remember that as alumni, the University of Maryland is always your home, and we look forward to welcoming you back often in the years ahead. Again, congratulations and best of luck.

Sincerely,

Danita D. Nias '81

Executive Director, University of Maryland Alumni Association

The Spring Graduates

Candidates for degrees

Doctoral:	209
Master's:	1,185
Bachelor's:	3,504
Total	4,898

Most popular undergraduate majors

1. Criminology & Criminal Justice	205
2. English Language & Literature	177
3. Government and Politics	164
4. Finance	160
5. Accounting	142

Most popular master's degrees

1. M.B.A., Business & Management	194
2. M.S., Electrical Engineering	58
3. M.L.S., Library & Information Services	46
4. M.ENG, Engineering (Professional)	40
5. M.S., Civil Engineering	37

Today you complete the journey that was undertaken several years ago, arriving proudly at the threshold of a new life. When you look back, can you see how this journey has changed you? As you sit here today, what events stand out in your mind as experiences that showed you which path to travel?

We have each followed a unique path but have reached a common destination. As seniors, it is easier to list the ways in which we are different from each other than the ways in which we are bound together.

We are accustomed to describing students in groups—commuters, residents; members of ethnic, religious, or professional organizations; students in particular departments and colleges. These differences should be admired and respected as should the many qualities we share.

From this point, you can reflect on past journeys. Remember what you learned along the way about who you are and what you are capable of achieving.

Know that your time spent at the University of Maryland will help you arrive at your next destination. Finally, always consider our campus to be another home, a stop on your life's journey to which you can always return.

Congratulations!

Hail! Alma Mater
Hail to thee, Maryland!
Steadfast in loyalty;
For thee, we stand,
Love for the Black and Gold
Deep in our hearts we hold,
Singing thy praise forever,
Throughout the land.

Floor Seating Arrangement
for Graduates in Cole Student Activities Building

Individual graduation exercises for colleges and schools will be held at various campus locations on Monday and two ceremonies will take place on Sunday evening. Guests are urged to be seated approximately one half-hour prior to the designated time for the ceremonies if they wish to observe the student and faculty processional.

Graduates, their families and friends are cordially invited and encouraged to join with university officials and members of the faculty at the reception to be held on Mckeldin Mall following the campus-wide commencement. In the event of rain, the reception will be held in the Grand Ballroom of the Stamp Student Union. Shuttle bus service will provide free transportation across the campus throughout the day.

Campus-wide Commencement

A Bold New Era

From its pre-Civil War roots as the state's first agricultural college and one of America's original land grant institutions, the University of Maryland, College Park, has emerged as a public research university of national stature, highly regarded for its broad base of excellence in teaching and research. The momentum of recent years has poised the university to move into the top ranks of higher education and take leadership in shaping the research university of the 21st century.

The university's commitment to quality education in a research environment is key to its academic reputation and the success of its graduates. The research enterprise infuses the curriculum at both the undergraduate and graduate levels,

exposing students to the most pressing issues and challenges in their discipline and training them to respond with rigor as well as creativity to contemporary problems.

There are 13 schools and colleges within the organizational structure of the University of Maryland. Seven of these units—the Smith School of Business, the College of Education, the Clark School of Engineering, the College of Journalism, the College of Computer, Mathematical and Physical Sciences, the College of Library and Information Services and the School of Public Affairs—have been recognized by their peers and in various rankings as among the 25 best in the nation. Programs within the other units have also achieved high levels of

recognition. Our School of Music, for example, has been ranked 30th nationwide. The breadth of this excellence is a source of pride for students, faculty and staff, and is endorsement for the university's flagship status among the state's institutions of higher education.

The university has enjoyed a period of rapid advancement in all of the areas that affect quality. The qualifications of entering students have risen each year for the past 10 years, and SATs now range from 1120 to 1300 for the mid-50 percent tier of students. In 1998, more than 1,000 of the 4,000 admitted first year students scored above 1300 on their SATs. Sponsored research has doubled in the same 10-year period, and is expected to surpass \$250 million for fiscal 1999. Private giving has increased even more dramatically, from \$18 million per year at the start of the decade to \$72 million in the last fiscal year. Alumni Association membership has been growing at an average rate of 10 percent a year since 1992. Coupled with renewed commitment from the state of Maryland for funding flagship initiatives, these factors ensure that the university will continue on a forward trajectory for many years to come.

One of the largest research universities in the United States, current enrollment stands at 24,776 undergraduate and 8,149 graduate students. There are 102

undergraduate programs, 90 master's programs and 70 doctoral programs, and more than 100 centers and institutes engaged in research and outreach.

The university has licensed more than 750 technologies since 1986, and has been issued 118 U.S. patents. An average of two new invention disclosures each week are received by the Office of Technology Liaison, a reflection of the pace of innovative technologies being created at the university.

Faculty at the University of Maryland, in all fields of knowledge, are engaged at the highest levels of national and international concern. The university's location near the center of federal policy-making and international political and economic activity enables it to play an active role in research and analysis of public policy. Strong links to the scientific and technological agencies and organizations of the federal government drive research in the environment, engineering, physics, computer science, life sciences and agriculture. Scholarship in the arts, humanities and social sciences is marked by the spirit of intellectual diversity and interdisciplinary collaboration.

Maryland is one of 34 public research universities in the prestigious 62-member Association of American Universities and the only public institution in the Maryland-D.C. area with membership in the nation's most distin-

gished honor society, Phi Beta Kappa. It is classified as a Research-1 university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received, and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

Fall 1998 Students at a Glance:

Total enrollment:	32,925
Graduate Students:	8,149
Full-time:	4,179
Part-time:	3,970
Undergraduates:	24,776
Full-time:	21,630
Part-time:	3,146
Average age:	24.1
States represented:	50
	<i>(plus Guam, Puerto Rico and the Virgin Islands)</i>
Countries represented:	151
Students of color:	33%

History

The University of Maryland was founded in 1807 in Baltimore as a faculty-owned College of Medicine. The medical school was considered one of the top schools in the country, attracting notable professors and lecturers from throughout the world. In its beginning, tuition cost \$140, grades were sent home weekly to parents, and students could obtain room and board for \$300 annually.

Five years later, the growing institution was renamed the Uni-

University Highlights

- In fiscal year 1998, grant and contract awards to the University of Maryland reached an all-time high of \$205 million, an increase of 32 percent over the previous year's record of \$155 million.
- The September 1998 issue of *Kiplinger's Personal Finance Magazine* named Maryland one of the top 25 values among the nation's public universities.
- Rankings continue to reinforce Maryland's rising reputation. In the latest *U.S. News & World Report* review of undergraduate schools, the Clark School of Engineering and the Smith School of Business were among the top 25. Graduate programs in education, engineering, library science, computer science, mathematics and physics ranked in the top 25. In addition, *Business Week* magazine ranked business' M.B.A. program No. 22 in the nation.
- The University Honors Program was spotlighted as an "Ivy League experience" at a bargain price in the *U.S. News & World Report* 12th annual guide to "America's Best Colleges."
- The university collaborates with more than 280 businesses through its Maryland Industrial Partnerships program. The university's incubator has spawned 20 new companies; three have been recognized as among the fastest growing in the state.
- As *Washingtonian* magazine stated in a December 1997 feature article on the rise of the University of Maryland, "The Terps are moving up, and we're not just talking basketball."

versity of Maryland. Despite the name, the university was not considered a state institution as it was still owned and operated by faculty. Baltimore College of Dental Surgery, the first dental school in the world, became a part of the university in 1840, awarding the first Doctor of Dental Surgery (D.D.S.) degree in 1841.

In 1859, the Maryland Agricultural College, which would evolve into the University of Maryland, College Park, was opened under a charter secured by a group of Maryland planters in 1856. In addition to spending one hour each day hoeing or plowing on the college farm, students took a broad range of courses in ancient and modern languages, natural sciences, English and mathematics. After a disastrous fire on campus in 1912, the state acquired the college and rebuilt it.

In 1920, the state legislature combined the College Park institution with the professional schools in Baltimore to form an expanded University of Maryland. The entity eventually grew to include campuses in Baltimore County, the Eastern Shore and University College, a continuing education institution.

The following decades saw the increasing growth of student population, excellence in programs and curricula, and the burgeoning of the University of Maryland, College Park, into a nationally rec-

ognized research institution.

July 1, 1988, marked the dawn of a new era in higher education in the state of Maryland, as the five components of the university were merged with six other state universities and colleges to form the University of Maryland System, and College Park secured its flagship status with a mandate to become one of the pre-eminent research universities in the nation.

The Alumni Association

With alumni clubs from Miami to Taipei, Taiwan, the Maryland Alumni Association strives to keep and strengthen ties between the university and its graduates. Member events such as pre-game parties, bull roasts, picnics, golf tournaments, dinner cruises and subscriptions to *College Park* magazine and the biannual *Maryland Alumni* supplement help keep alumni connected to the university and to each other. All graduating

seniors and successful master's and Ph.D. candidates receive a one-year free membership in the Maryland Alumni Association.

The Alumni

Graduates of the university go on to distinguished careers in a variety of fields. Chosen from thousands of qualified alumni, an inaugural group was inducted into the University of Maryland Alumni Association Hall of Fame in April, 1995. They included 21 outstanding individuals who have brought, and continue to bring, great honor to their alma mater. Their achievements are as varied as their lives, but they all have one thing in common: a University of Maryland, College Park, diploma.

Carmen Balthrop, B.A. '71

World-class soprano and mentor to aspiring vocalists

Harry Clifton "Curley" Byrd, B.S. '08

Legendary university president for 18 years

A. James Clark, B.S. '50

Construction magnate and benefactor

William P. Cole, Jr., B.S. '10

Congressman and member of UM Board of Regents for 25 years

Mary Stallings Coleman, B.A. '35

First woman elected as Chief Justice, Michigan Supreme Court

Geary F. Eppley, B.S. '20, M.S. '26

Devoted career to university as dean of men and athletic director

Charles F. Fefferman, B.S. '66

Youngest winner of Field's Medal, mathematics highest award

Herbert A. Hauptman, Ph.D. '55

Co-recipient of 1985 Nobel Prize in Chemistry

Jim Henson, B.A. '60

Creator of the beloved Muppets

Steny H. Hoyer, B.S. '63

Public servant to Maryland for nearly 30 years

Carlisle Humelsine, B.A. '37

Leader of Colonial Williamsburg Foundation

Wilbur Munro Leaf, B.A. '27

Creator of "Ferdinand the Bull" story

Samuel J. LeFrak, B.S. '40

Internationally acclaimed urban planning leader

Parren Mitchell, M.A. '52

First African-American student and Maryland congressman

Jane Cahill Pfeiffer, B.A. '54

First woman to head a major network; named chair of NBC in 1978

Judith A. Resnik, Ph.D. '77

Pioneering astronaut; died tragically in Challenger shuttle disaster

Chun-Shan Shen, Ph.D. '61

President of Taiwan's National Tsing-Hua University

William Woolford Skinner, B.S. 1895

Nationally prominent agricultural research chemist

Adele H. Stamp, M.A. '24

Dean of Women at Maryland from 1922 to 1960

Reginald Van Trump Truitt,
B.S. '14

Leading naturalist and marine biologist; pioneered Chesapeake Bay research

Millard E. Tydings, B.S. '10

Introduced legislation to create University of Maryland in 1920

The Maryland Alumni Association Hall of Fame is located in the Commuter Lounge of the Stamp Student Union. Periodically, the association will induct other graduates into the Hall of Fame—its highest honor.

Customs of Commencement

Early commencement ceremonies at the University of Maryland were marked with great fanfare and celebration. The faculty gave huge banquets for the graduates the night before the event. The following morning, crowds gathered to watch the young graduates parade. It was a gala social occasion, attracting not only friends and relatives, but the fashionable elite of the day. At the ceremony, prayers were recited, speeches were made, and honorary degrees were awarded to distinguished figures from across the country. Finally, as the audience cheered and threw flowers, the graduates came forward to collect their Latin-inscribed degrees.

Academic Costume

The black caps and gowns worn by the students and faculty in the

academic procession have been the traditional costume of scholars since the Middle Ages. The ordinary dress of the scholar, whether student or teacher, was similar to that of a cleric. Caps and gowns were probably worn to keep students warm in unheated buildings. Many medieval scholars were tonsured, like monks, and hoods served to cover their shaved heads until the skull cap later took its place.

Even after the Civil War, most students at American universities wore caps and gowns daily while in residence. These varied in design until they were standardized by the American Intercollegiate Commission in 1894. At that time it was decided that all robes would be black. Colors on the trim of the gown were also standardized to indicate the scholar's academic discipline.

A list of department colors follows:

Agriculture: Maize
Arts, Letters, Humanities: White
Business Administration,
Commercial Science: Drab
Dentistry: Lilac
Economics: Copper
Education: Light Blue
Engineering: Orange
Fine Arts, Architecture: Brown
Forestry: Russet
Home Economics: Maroon
Journalism: Crimson
Law: Purple
Library Science: Lemon

Medicine: Green
Music: Pink
Nursing: Apricot
Oratory, Speech: Silver Gray
Pharmacy: Olive
Philanthropy: Rose
Philosophy: Dark Blue
Public Administration, Foreign
Service: Peacock Blue
Public Health: Salmon
Physical Education: Sage Green
Science: Golden Yellow
Social Work: Citron
Theology and Divinity: Scarlet
Veterinary Sciences: Gray

The tassel may also be colored to represent an academic discipline or it may be black. Officially, the tassel is permitted "to lie where it will" on the mortarboard. However, numerous institutions have adopted the practice of having degree candidates wear the tassel on the right front side at the start of the commencement ceremony and then shift them to the left side after degrees are awarded.

Student Marshals

Elected through a nomination process, student marshals are senior leaders who play an important role in the graduation ceremony. Student marshals assist in organizing the thousands of graduates, leading them smoothly through the commencement procession. They also supply extra caps and hoods, and bobby pins to keep headwear secure. May 1999 marshals are listed on page 66 of this booklet.

Senior Gift

The senior gift is a university tradition dating back 89 years. The first senior gift, the iron gate entrance at the Rossborough Inn, was given by the Class of 1910 (although the gate itself was not erected until 1941). The class of 1999 has elected to establish the Henson Garden. The garden will be located on the corner of Library Lane and Campus Drive, site of the future Jim Henson and Kermit the Frog sculpture (Senior Gift, Class of 1998).

The purpose of the senior gift is twofold. Each year the senior class leaves behind a memorable legacy for new students and visitors, and provides the university with a gift that enhances the campus atmosphere.

Past senior gifts have included: the Testudo statue (Class of 1933), the lights around the "M" in the traffic circle on Campus Drive (Class of 1986), restoration of the Chapel chimes and clock face (Class of 1992) and the bronzed seal on North Gate House (Class of 1995).

Academic Degrees

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide. The University of Maryland offers degrees in 102 undergraduate majors, 90 master's programs, and 70 doctoral programs.

The Doctor's Degree

The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Juris Doctor, and Doctor of Pharmacy. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees ever on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery (D.D.S.).

The second type is the research doctorate representing prolonged periods of advanced study. A dissertation that usually accompanies the study is intended to contribute substantially to the body of knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an

implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

The Master's Degree

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. It was first conferred in America in 1642 on the first nine graduates of Harvard College. Maryland Agriculture College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) in 1862.

“James Carville and Mary Matalin, lifetime political consultants, met and fell in love. They shared a dream: to direct a campaign for President of the United States. And then their dreams came true. Problem was, they had to campaign against each other.”

—from the publisher of *All's Fair: Love, War and Running for President*, Simon & Schuster 1994

It sounds like an outline for a novel, or a treatment for a romantic comedy: Two star-crossed lovers from the opposing houses of Republican and Democrat, struggling to preserve a romance against the backdrop of a fiercely competitive political campaign. And it was, in fact, the plot of the best-selling *All's Fair: Love, War and Running for President*. But there's the rub: This tale is true.

Democrat James Carville and Republican Mary Matalin were thrust into the public eye as the campaign managers for Bill Clinton and George Bush during the 1992 presidential race, detailed with wry honesty in the aforementioned political memoir; their courtship and eventual marriage triumphed above the intense rivalry of their opposing parties. Today, the two share high profiles as authors, respected political commentators and consultants, radio and television personalities and public speakers.

Mary Matalin, an Illinois native and graduate of Hofstra University's law school, first joined the Bush bandwagon in 1986 after serving as Chief of Staff to the Co-Chairman of the Republican National Committee. Four years after his 1988 victory, Bush named her the Deputy Campaign Manager for Political Operations, where she oversaw the organization of all 50 state operations and traveled with Bush as an on-board planner. Matalin also founded the CNBC talk show “Equal Time,” which she co-hosted from 1993-96. From 1996-98 she hosted her own afternoon radio program, aptly titled “The Mary Matalin Show,” on the CBS Talk Radio Network, and was named one of the “100 Most Important Talk Show Hosts in America” by *Talkers Magazine* three years in a row.

James Carville, who holds a law degree from Louisiana State University, earned the appropro nickname “Ragin’ Cajun” while managing Lloyd Dogget’s unsuccessful campaign for governor of Texas in 1983. It would be one of the rare losses for Carville who has managed more campaigns than anyone in U.S. political history. His command of the “War Room,” Clinton’s famous Little Rock, Ark., 1992 campaign headquarters, earned him a featured role in the Oscar-nominated documentary of the same name and a 1993 Campaign Manager of the Year Award from the American Association of Political Consultants. Following Clinton’s victory, Carville worked as a consultant to the Liberal Party of Canada, to members of British Prime Minister Tony Blair’s staff and to politicians in such countries as Brazil and Honduras. He is the author of the best-selling *We’re Right, They’re Wrong: A Handbook for Spirited Progressives*, and the recent *And the Horse He Rode in On*.

Mary Matalin and James Carville

Benjamin Lynerd '99

If scientists sought to create the Ideal Undergraduate—intelligent, generous, well-rounded and versatile—they might draw inspiration from Benjamin Lynerd. He is, in the words of Charles Butterworth, professor of government and politics, “the closest thing I have seen to a brilliant student in 30 years of teaching. What’s more, he is gracious, witty, urbane, and above all, a good citizen.”

Ben is a double major in Government and Politics and Music. He is a member of both the University Honors Program and the Government/Politics Departmental Honors Program, and is graduating with a G.P.A. of 3.92. He has served terms as both president and vice-president of Maryland’s chapter of Pi Sigma Alpha, the national political science honor society. He won the Homer Ulrich Award for Piano Performance in 1997, the same year he was a delegate at a student conference on United States Affairs hosted by the United States Military Academy in West Point, N.Y. He truly enjoys dissecting the prelude to Wagner’s opera *Tristan und Isolde* and grasping political theorists’ understanding of the dichotomy between economy and the household. He’s headed to the University of Chicago to earn a master’s degree in political theory. He hopes to someday attain a Ph.D and to teach at the college level.

And he’s only 22 years old.

“Ben is the genuine article,” says Stephen Elkin, professor of government and politics. “He gives every indication of doing something important in the world.”

Ben has already managed to do some important things during his four years at Maryland. One such occasion was a 1998 summer internship at the office of Maryland Gov. Parris Glendening, where Ben had the chance to evaluate welfare reform initiatives throughout the state. He and his fellow interns visited departments of Social Service from rural Garrett County to the heart of Baltimore City and presented their findings to Lt. Gov. Kathleen Kennedy Townsend. “When preparing recommendations for improvement, we realized that individual counties offered more innovative initiatives for their own clients than the state or Federal government,” explains Ben, who says Townsend was “very warm and receptive to our ideas.”

While indulging the political side of his personality, Ben also combined community service and music in a unique fashion: piano recitals at retirement facilities, most notably the Riddle Village Community in Media, Pa. After each concert Ben, decked out in a tuxedo, spent time chatting with the members of the audience. “It’s a personal thing for me,” he says of the recitals, “because the residents are always so moved by the music. I think I’m at my best playing for them.” He definitely plans to continue this form of outreach in Chicago.

Charles Butterworth, again, sums him up best: “Ben is an extremely intelligent, energetic, dedicated young man who has served the campus and local communities with aplomb and has contributed greatly to enriching our lives.”

The May 1999 class roster comprises degree candidates from the graduate and undergraduate programs at the University of Maryland, College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative only. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral) will be mailed by the Office of Records and Registration.

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listing of colleges or schools, pages 32-60.

To be eligible for consideration for such honors a candidate must meet the following general criteria: (1) have completed at least two years of work at the University of Maryland (60 semester hours, 30 of which were earned at the College Park campus) and (2) have a scholastic average of a "B" (grade point average of 3.0) or higher in the University of Maryland work prior to the last semester of registration before the awarding of a degree.

Degree candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designations *Summa cum Laude* (if they ranked in the top 2 percent of the candidates in their respective colleges or schools), *Magna cum Laude* (if in the next 3 percent), or *cum Laude* (if in the next 5 percent) based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

University Honors Citations

Students who have earned the University Honors Citation may wear red and gold braided cords over their academic gowns.

The Student Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administrators and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.

Mimi Kuriyama Fellowship

The Kuriyama Fellowship honors Masako "Mimi" Kuriyama, wife of his Excellency (the former Ambassador of Japan) Takakazu Kuriyama, for her intercultural spirit and commitment to mutual understanding between Japan and the United States. The Kuriyama Fellowship will provide a stipend of \$2,000 for the professional development of a Japan-focused intercultural educator who will benefit from further study, inspire teachers to learn more about U.S.-Japan relations, communicate and interact with regional educators, and help teachers motivate the rising generation to act harmoniously and effectively in a multicultural world.
